

United States Patent  
5,294,606

Granted: March 15, 1994

Inventors: **Carl W. Hastings**, Glencoe, Missouri

Assignee: **Reliv International, Inc.**, Chesterfield, Missouri  
*Isotonic Energy Composition*

FIELD OF INVENTION

*This invention relates to an isotonic energy composition including the carbohydrates, fructose and maltodextrin, the electrolytes, zinc, chromium, calcium, potassium, magnesium, sodium and the nutrients Vitamin C, and beta carotene. The electrolytes zinc and chromium are delivered in the form of an organic complex.*

The Commissioner of Patents and Trademarks

*Has received an application for a patent for a new and useful invention. The title and description of the invention are enclosed. The requirements of law have been complied with, and it has been determined that a patent on the invention shall be granted under the law.*

Therefore, this

United States Patent

*Grants to the person(s) having title to this patent the right to exclude others from making, using, or selling the invention throughout the United States of America for the term of seventeen years from the the date of this patent, subject to the payment of maintenance fees as provided by law.*
